Oryon Imaging, Oryon Develop and Oryon Connect have been respectively offering affordable imaging, professional CPD courses and a secure online community for a number of years. The name Oryon, however, is new for 2019.

Previously, Oryon Imaging was known as London Imaging Centre, Oryon Develop was known as CPD Gateway, and Oryon Connect was known as Trevor, our secure online portal.

We wanted to bring all our sister brands and companies together under one umbrella brand to help us make our service even more transparent, efficient and the best in patient care, so in 2017 we started work on our new venture, Oryon.

“We have been delivering affordable and accessible diagnostics and education for a number of years as independent brands; Oryon provides us with the opportunity to continue to improve our great service for all of our customers.

Welcome to your journey with Oryon.”

Les Clark, Director

Our Values

Oryon offers innovative, personalised healthcare that is affordable, straightforward and convenient.

Our services are delivered by our dedicated and approachable team in a friendly and professional environment that inspires confidence and reassures patients.

By providing opportunities for networking and collaboration between healthcare professionals, we strive to make healthcare provision more innovative, flexible and efficient.

Our Vision and Mission

Oryon's vision, and therefore the driving force behind everything we do, is to become the go-to place for affordable, private diagnostic and preventative healthcare in the UK.

Our mission is threefold.

Firstly, to provide the quickest, most affordable and personalised healthcare available, through the services of Oryon Imaging and Oryon Connect.

Secondly, for Oryon Develop to become the leading voice for expertise within the wellness sector, a place where both healthcare professionals and the public can engage with the latest healthcare and wellbeing content.

And finally, to encourage and inspire our colleagues to embrace and contribute to the innovation-led culture that is at the heart of everything Oryon stands for.

Affordable diagnostic imaging in London's Harley Street district

Oryon Imaging is based on Wimpole Street in London's world-renowned Harley Street district. We pride ourselves on offering the most accessible and affordable diagnostic imaging services possible, making sure that the path to a diagnosis is efficient and informative.

We offer MRI, Ultrasound, X-ray and DEXA scans for self-pay and insured patients.

MRI
from £200

Ultrasound
from £250

X-ray
from £40

DEXA
from £65

Use our secure online community, Connect, to make referrals, book scans for your patients and view their scan results.

Convenient, affordable CPD for allied health professionals

Oryon Develop holds CPD courses for osteopaths, chiropractors, physiotherapists and other allied health professionals around the UK. We offer day and evening courses on a variety of specialist topics, each designed and delivered by expert speakers, imparting the latest knowledge and techniques.

Book a course online, or contact us if you'd like to speak at an event.

www.oryon.co.uk/develop
020 7042 1899
develop@oryon.co.uk

"The events are always really informative, the staff are very friendly and welcoming, there's a good handout for you to follow and the consultants are always really interesting and up to date with new technologies."

Sarah Shand, Osteopath

"CPD events are essential, and they provide the attendees with an invaluable opportunity to consolidate, maintain and improve their knowledge and skills in a friendly manner. At the same time it's also essential for the speakers, because they engage with their audience as part of their networking, [...] creating links between medical professionals and allied health professionals, who depend on each other and work together for the benefit of the patient."

Dr Serge Nikolic, Consultant in Pain Medicine

Showing the way to better health

Oryon Connect exists to illuminate the way to a quick diagnosis, providing a fast, efficient and easy-to-navigate route to better health for patients, while offering healthcare professionals a straightforward pathway to providing better services and outcomes for their patients.

Our secure online community, Connect, has a range of features for healthcare professionals and for patients. You can refer online and see an overview of your patient's journey with us, from booking an appointment to viewing the results. You can also book CPD courses delivered by expert speakers in your area.

But that's not all! Oryon Connect points people with healthcare concerns in the right direction, towards healthcare professionals and clinics that are able to make a fast and accurate diagnosis, thus helping to speed up the recovery process.

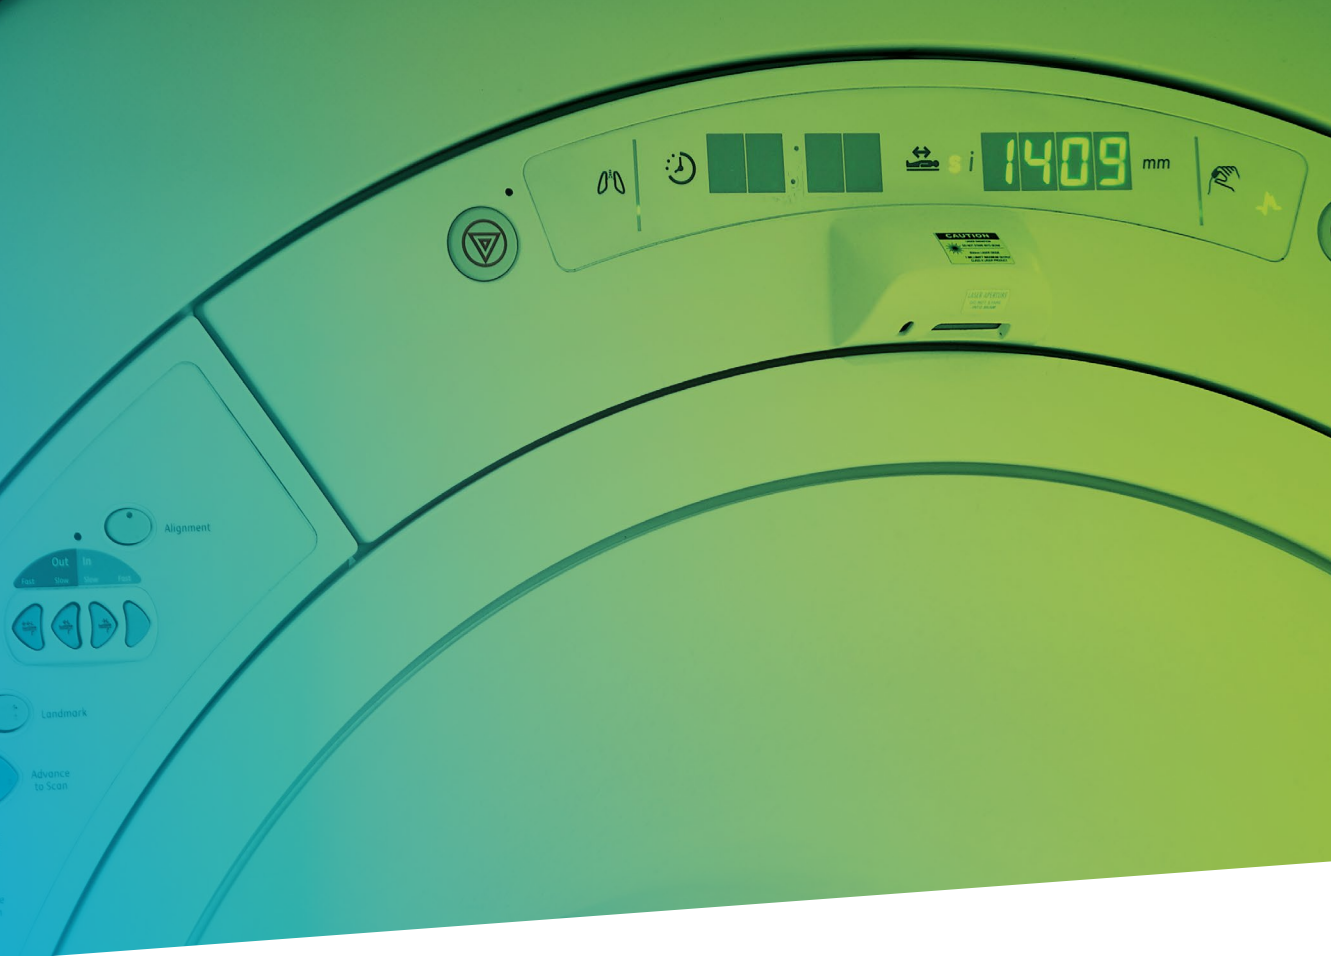

Log into Oryon Connect to benefit from our secure online community. Partner with us to join the Connect community of healthcare professionals.

“The cost-effective efficiency has really been second to none over all these years.”

Dr Keith Bush, Consultant Orthopaedic and Sports Physician

MRI

With fast, accurate reporting and efficient appointment times, we're a great option for patients who want high-quality diagnostic imaging, at a convenient location, for a reasonable price.

Opening hours

Our MRI clinic is open seven days a week, 8am-10pm on weekdays and 8am-8pm on weekends. Check our website for bank holiday opening hours.

Pricing

We are proud to offer standard MRI scans from as low as £200. To keep our prices affordable, we operate a flexible pricing scheme, based on the time of day and the region being scanned. You can see all our live prices and availability on our website, which can help you or your patients make an informed decision.

How to refer

The easiest way to refer for MRI is to log in or sign up to our secure online community, Connect. Here you can submit referrals, view live prices and availability, book patient appointments, view scan images and reports, and manage patient appointments. Just click on 'My account' to log in or sign up.

You can also call us on 020 7042 1888 or email the referral to imaging@oryon.co.uk.

Regions

Prices vary according to the region of the body being scanned. See the table below for more details of which regions are classed as standard, and which are complex. In general, regions that require bespoke protocols are complex.

Standard MRI regions (without contrast)

Brain	Wrist (L/R)
IAMs	Hand (L/R)
Sinuses	Thumb (L/R)
Orbits	Hip (L/R)
Face	SIJs
Cervical spine	Sacrum
Thoracic spine	Coccyx
Lumbar spine	Thigh (U/L) (L/R)
Scapula	Knee (L/R)
Shoulder (L/R)	Calf (U/L) (L/R)
Humerus (U/L) (L/R)	Ankle (L/R)
Elbow (L/R)	Forefoot (L/R)
Forearm (U/L) (L/R)	

Key: (U/L) = Upper/Lower (L/R) = Left/Right

Contrast scans are available; any scans requiring contrast will be priced subject to triage.

Complex MRI regions

Brain (Specialised Protocols)	Small bowel
Brain MRA	Pancreas
Pituitary	Groin
TMJs	Abdomen
Neck soft tissue	Pelvis soft tissue
Chest wall	Pelvis MSK
Sternum	Arthrogram
Liver	
MRCP	

Results

All scan images are available on your Connect account immediately after the scan, and your patients can log in to their own Connect account to view the images. Patients also leave the centre with a CD containing their images. We aim to send radiologists' reports to you via Connect, post or fax within one working day. If you require urgent reporting, please let us know as far in advance as possible, and we'll try our best to arrange it for you.

X-ray

Oryon Imaging offers affordable and accessible X-ray and Visa X-ray services in the heart of London's Harley Street district.

Opening hours

We offer pre-booked or walk-in appointments for X-ray. Our X-ray clinic is open on weekdays from 9am-5:30pm, and we take walk-in X-ray appointments until 5pm.

Pricing

Prices start from as low as £40 per view.

How to refer

The easiest way to refer for X-ray is to log in or sign up to our secure online community, Connect. Here you can submit referrals, book patient appointments, view scan images and reports, and manage patient appointments. You can also call us on 020 7042 1888 or email the referral to imaging@oryon.co.uk.

If you require urgent reporting, please let us know as far in advance as possible, and we'll try our best to arrange it for you.

Visa X-ray

We are accredited to carry out X-rays requested by certain embassies as part of a visa application. All your patients need to do is pre-book and bring some photographic ID with them to their appointment, and they will receive their visa X-ray report to take to the embassy within a few working days, (the report needs to be signed by a Consultant Radiologist, who can do so when they come to the centre for their ultrasound clinic). This service is priced at £65.

“I am a clinician who deals with many complex patients; as such I refer for imaging frequently to help with the diagnostics of many of my patients. [Oryon] Imaging is my preferred provider for several reasons. The online [community] works extremely well, so we can enter all the patients’ data online, even book appointments; it’s seamless. Patients give consistently good feedback about the care they receive from [Oryon] Imaging when they attend for their imaging. The images (which are generally great quality) are accessed online soon after the patients’ images are performed and radiology reports from a variety of Consultant Radiologists are usually available within 24 hours.

Compared to other imaging providers in Central London, [Oryon] Imaging are very reasonably priced which makes a huge difference to my patients, many of whom are self pay. I have no hesitation in recommending [Oryon] Imaging for X-ray, MRI and US diagnostics.”

Mr Gerry Gajadharsingh, Osteopath

‘[Oryon Imaging] has managed to bring different groups of people together, from admin staff to radiologists, through a super-organised system which really benefits the patient.’

Dr Ali Zavareh, Consultant Radiologist

Ultrasound

We offer consultant-led ultrasound with professional service and rapid results.

Opening hours

We run ultrasound clinics with our Consultant Radiologists during the week. Please check our website for clinic hours.

Pricing

Prices start from £250 for a single region ultrasound scan. Please contact us for prices for multi-region scans.

How to refer

All you need to do to refer a patient for ultrasound is send us their referral. We'll match their clinical indications to one of our specialised consultants and contact them to book them in for an appointment at a time that suits them. Simply log in to your Connect account and submit a referral or email it to us at **imaging@oryon.co.uk**.

Results

All scan images are available on your Connect account immediately after the scan, and your patients can log in to their own Connect account to view the images. Patients also leave the centre with a CD containing their images. We aim to send radiologists' reports to you via Connect, post or fax within one working day. If you require urgent reporting, please let us know as far in advance as possible, and we'll try our best to arrange it for you.

DEXA

Measure bone density or assess vertebral fractures at Oryon Imaging, with rapid reports produced by one of our consultant specialists.

Opening hours

Our DEXA clinic runs from 9am-5pm, Monday to Friday.

Pricing

We offer two types of DEXA scan:

- **DEXA Standard:** For the detection of osteoporosis or review of its treatment. £65.
- **DEXA + IVA (Instant Vertebral Assessment):** For the assessment of vertebral fractures. This is a rapid low-dose X-ray scan of the entire spine, taken in combination with a bone density test. £99.

How to refer

All you need to do to refer a patient for DEXA is send us their referral. Our Clinical team will quickly triage the referral, and we'll contact your patient to get them booked in for the required scan. Simply log in to your Connect account and submit a referral or email it to us at

imaging@oryon.co.uk.

Patients who want a standard DEXA scan for osteoporosis detection can self-refer by filling out our DEXA Self-Referral Form, which can be found on the DEXA section of our website.

Results

Scan images and analysis are available on your Connect account immediately after the scan, and your patients can log in to their own Connect account to view them. Patients also leave the centre with a CD containing their images and analysis. We aim to send radiologists' reports to you via Connect, post or fax within one working day. If you require urgent reporting, please let us know as far in advance as possible, and we'll try our best to arrange it for you.

“We regularly send our dancers here for scans due to the great service, fast access to appointments, ease of referral, nuanced scanning sequences, and detailed reporting.”

Greg Retter, Clinical Director at The Royal Ballet Company

“I refer to [Oryon Imaging] because of the quality of the scans and reporting; that’s the bedrock necessity. It’s also a friendly environment; I get a lot of good feedback from patients that the reception staff and radiographers are all very kind, caring and understanding, so they have a good experience.

Also, the financial side of things of course is very important for everybody, particularly the self-pay market such that they get value for money, and I know that [Oryon Imaging] goes out of its way to find times in the day, at weekends and evenings to give the best financial deal.”

Dr Sean White, Consultant in Pain Medicine

Pricing

Our flexible pricing structure was first introduced under London Imaging Centre in 2018 as a way of spreading out our affordable appointments, thus making our affordable service available to patients throughout the week, not just on weekends. This pricing structure was lovingly named Alan, to accompany our contemporaneous online portal, Trevor.

As Oryon Imaging, our prices are staying the same. We still offer our most affordable rate of MRI from £200 throughout the week, as well as same-day appointments from £350.

X-ray is priced at £40 for a single-region scan, Ultrasound starts at £250 and DEXA scans for osteoporosis are £65.

Pre-pay accounts

We offer preferred rates to organisations who choose to open a pre-paid account with us. This fixed rate for scans depends on the amount which you choose to pre-pay.

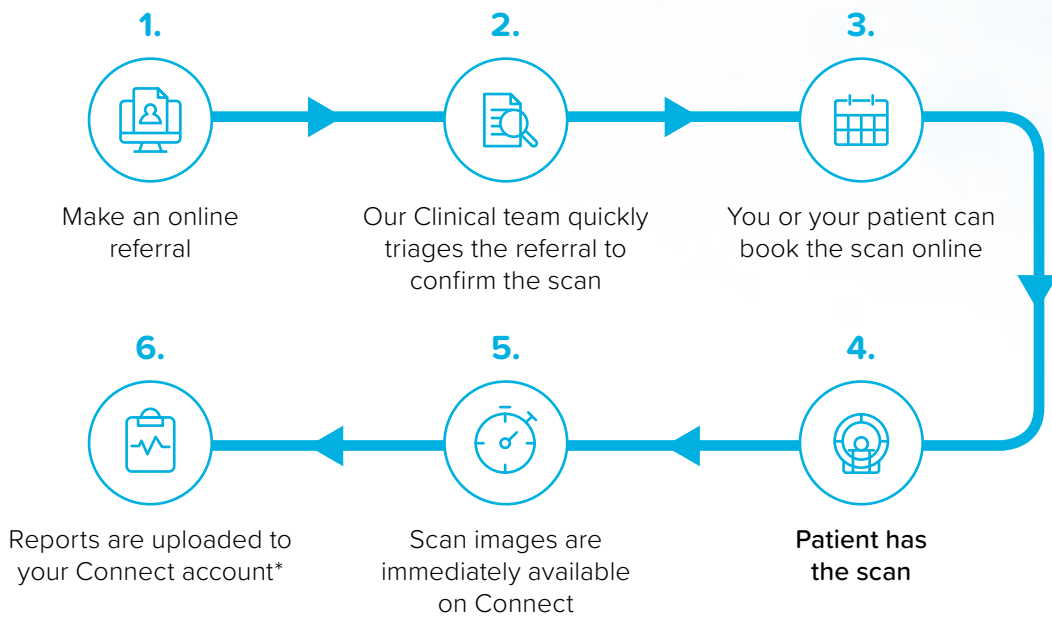

Having an account with us streamlines the referral process even more as all you need to do is send us patient referrals. We then book them in for their appointment, send you a price notification and simply take the cost off your account. We'll keep you updated on the status of your account and let you know if you're starting to run low.

If you're interested in finding out more, give us a call on **020 7042 1888**, or email us at imaging@oryon.co.uk.

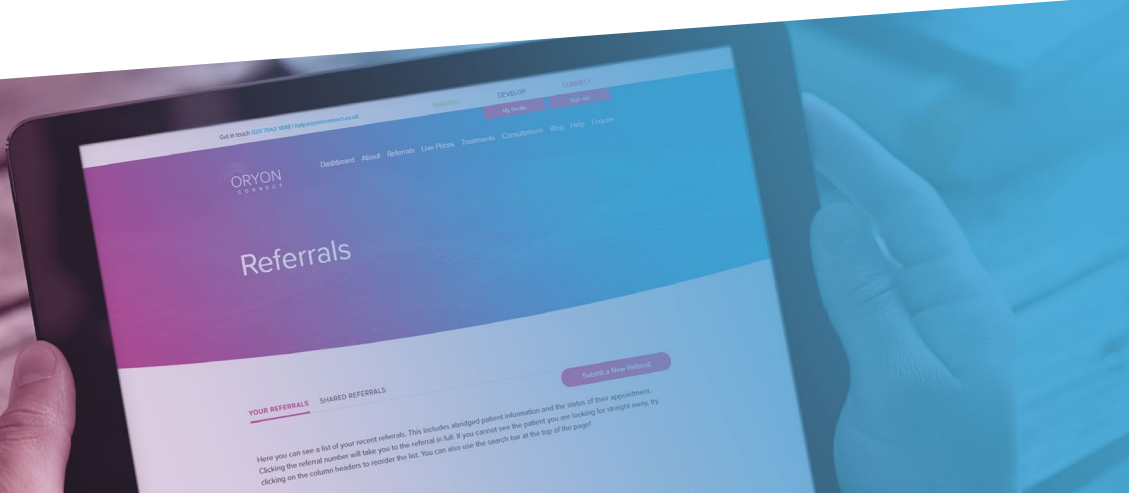

Why use Oryon Connect to refer patients?

Our secure online community, Connect, allows you to make referrals, book appointments, manage all your referrals and view scan results. Here's how it works.

*We aim to make all reports available within one working day.

Call us to find out more on **020 7042 1881**, or sign up to Connect online at www.oryon.co.uk/connect

Why work with Oryon Connect?

As a healthcare professional, you can benefit from having patients sent to you for expert advice and treatment by partnering with us at Oryon Connect. Here's how it works.

1. Someone with a musculoskeletal or neurological concern contacts us to get help and advice on how to get prompt diagnosis and treatment.
2. We look at their individual case and explain a relevant healthcare journey for them based on their clinical indications. This explanation of the journey allows them to make an informed decision about how to proceed with their treatment.
3. This will often involve seeing or speaking to a clinician for a consultation. If so, we give the patient details of relevant clinicians, including location, pricing and reviews.
4. Should the patient decide to book a consultation with you, we take care of the process and book them in for an appointment.
